This Spacer Kit for A1822 iPads allows the standard iPad Air-2 Dock to accommodate the slightly thicker A1822 iPad design.

Drop the 4 disks spacers and 2 spacer bars into the shape-matched pocks on the underside of the Top housing as shown; then tighten screws until snug.

Disk Spacer (4X)

Bar Spacer (2X)

To assure the lightning cable plug does not bind with the jack on the iPad it powers, consider wrapping the grip area shown with 2-3 revolutions of scotch or electrical tape prior to installing. Remember to tighten cable-lock screw until snug
